

Byte Pro - AE Access Description of Reports

(Revised 12/06/19)

- **AE – 1 Master Report** = complete pipeline report
- **AE – 2 Manager 4400 Cleared Appr – In Pro** = Lists all files that an appraisal has been reviewed by the Valuation Specialist (VS)
- **AE – 3 Files in UW** = identifies files that the TMs have “TASKED” to UW to review
- **AE – 4 Files in Line for VS Review** = identifies files that the TMs have “TASKED” to the Valuation Specialist (VS) to review
- **AE – 5 – Files Released from UW to TM** = identifies files that have been returned from the UW and in line for the TM to send out the Approval, Suspense, Decline.
- **AE – 6 – Files in Line for CD-Initial Doc Prep** = identifies files that are in line to have a CD or Initial Doc Prep (NON-TRID) completed; once CD/Initial Doc Prep is completed, the files will no longer show on this report
- **AE – 7 - Files Cleared by UW and In Closing Department** = identifies files that UW has cleared PTDs, TM has completed checklists and moved the file to the closing department
- **AE – 8 – AE Forecast Report** = identifies files that a TM has added to the funding forecast
- **Standard** = Use this report to search by FILE NAME; You can access to look up prior loans closed/cancelled/denied

The screenshot shows a software interface with a menu bar (File, Edit, Goto, Interf) and buttons for Pipeline and Dashboard. Below these is a search section with a 'Help on Searching' link, 'Search' and 'Clear' buttons, and a 'Matching Within' dropdown menu. A red circle highlights the 'File Name' search field, which is currently empty. Below it are fields for 'First Name', 'Last Name', and 'Property', all of which are also empty.
