*** Added 05/19/2021**

Non-Licensed originators should be identified within BytePro as shown below:

1. On the Intake Screen in BytePro check the "Non-Licensed Originator" Checkbox

A screenshot of a software interface element. It features an orange rectangular background. On the left, the text "Non-Licensed Originator?" is written in a bold, black font. To the right of this text is a small, empty white square checkbox. A black arrow points from the text towards the checkbox. Further to the right, the text "Check if Yes" is displayed in a smaller, black font.

We do not anticipate any process changes other than specific disclosure and security documents that will not reflect licensing information.

If you have any questions, please contact your immediate supervisor.
