

There are two new validations in BytePro. They are as follows:

Interest rate is currently ABOVE max interest rate (ARM floor +6%)

| | | |
|---|---------|---|
|  | Warning | Interest Rate is Currently ABOVE Max Interest Rate (ARM Floor + 6%) Please speak to your manager if you have any questions about this warning. |
|---|---------|---|

Interest rate is currently BELOW the ARM floor rate

| | | |
|---|---------|---|
|  | Warning | Interest Rate is Currently BELOW the ARM Floor Rate Please speak to your manager if you have any questions about this warning. |
|---|---------|---|

Both of these validations will show when the Amortization Type on the Home Screen is selected as ARM. Both of these validation rules apply when the Submitted status is set, as well as when the Approved/In Process status is selected. These validations will also show when you leave the home screen. If you have any questions, as always, contact your manager or Compliance.

As always, if you have any concerns or questions, please raise them with your manager or QC.
