#### Acra Lending Fix and Flip

Introduction to Appraisal Review Form 1004 and 1073

### Goals of this Presentation

- We will Discuss how to review an appraisal according to Acra Lending's Guidelines
- This Presentation has 2 parts. Part One will cover Form 1004 for Single Family Residence. Part Two will cover Form 1073 for Condo
- There are many potential red flags in an appraisal that can either kill a loan or delay the loan. The hi-lighted areas in each diagram are areas to pay close attention to. We will review the appraisal section by section in chronological order.

### Part One

Overview of form 1004 for Single Family Residence

### Things to check for in the Appraisal

- The appraisal must contain an as-is value, and an ARV if the loan includes rehab
- Review appraisal for any mention of underground or in-ground oil tanks. This may kill the loan
- Review the rehab budget. If the appraiser identifies repairs that are not listed on the rehab budget, the
  borrower will need to resubmit a rehab budget with the appropriate fees and include the repair. For
  example, a roof that has a hole in it, but not mentioned on the rehab budget. Also, the appraiser will have to
  review the report again
- Review for any fire or water damage on the report that was not disclosed to us by the borrower
- If the appraisal states a geographical obsolescence. This will require further review and Sr. Mgmt approval.
- If the appraisal states that the property was affected in a recent natural disaster area. This will require further review and Sr. Mgmt approval.
- If the appraisal mentions a visible LPG/Propane tank, the appraiser needs to state in the report if this is typical of the market. If so, appraiser to comment if this will have any effect on value or marketability
- Carefully review the conditions described in the exterior description. If they are fair or poor, then these are a
  red flag for the loan and may be declined because the home does not meet minimum condition standards
- The appraisal is good for 90 days from the time of closing. Any more than that will require an exception from management.
- If the loan is a purchase, the appraisal must include the MLS number that is associated with the property.

### Reviewing the Subject section of the Appraisal

- Check the subject property address to ensure it is correct. The Borrower should also be a business.
- A complete legal description of the subject property should be noted on the appraisal report. The legal description provided within the appraisal report must conform to the information within the application, the purchase agreement and the preliminary title report.
- Check for occupancy. Must not be Owner Occupied. In a rehab scenario, depending on the scope of work, we would want the box to be checked as Vacant. We do not want a tenant holding up our borrower's loan and rehab work. If tenant occupied, we may want a letter from the tenant stating they are aware and ok with the work being done.
- Check to see if property is a PUD. If property is a PUD, check to see if there is an HOA payment. This should match what we have in Decipher
- Property rights appraised should be Fee Simple, or Leasehold.
- Check report to confirm that it is in the name of Citadel Servicing Corporation.
- If the loan is a purchase, check to see if the seller is the owner of public record. The 'Yes' box should be checked.

Property Address 1471 Teekwood Cv	City Memphis	State TN Zip Code 38134							
Borrower Tina Andrade	Owner of Public Record Killen Ann T	County Shelby							
Legal Description Deed Instrument# 91 (Shelby Cour	nty Register's Office)								
Assessor's Parcel # 089010 0004	Tax Year 2020	R.E. Taxes \$ 1,518							
Neighborhood Name Williford Estates BLK B	Map Reference 033-001	Census Tract 0211.22							
Occupant Owner Tenant X Vacant	Special Assessments \$ 0	HOA\$ 0 per year per month							
Property Rights Appraised X Fee Simple Leasehold	Other (describe)								
Assignment Type Purchase Transaction Refinance Tra	nsaction X Other (describe) Ascertain Market Value								
Lender/Client RCN Capital	Address 75 Gerber Road, South Windsor, CT 0607	74							
Is the subject property currently offered for sale or has it been offered	d for sale in the twelve months prior to the effective date of this appraisal?	Yes X No							
Report data source(s) used, offering price(s), and date(s). MAAR-MLS records do not indicate the subject is listed or offered for sale within the									
months prior to this most recent date of apprais	al								

### Reviewing the Contract Section of the Appraisal

- Verify that the Appraiser did review the purchase contract.
- Verify if transaction is arms-length or non-arms length. Acra Lending does not lend on non-arms length transactions.
- Verify that the purchase price is correct.
- Verify if the seller is the owner on record.
- Check to see if there was any financial assistance. This is a red flag if checked 'Yes'.

(	did		did not analyze the contract for sale for the subject purchase transaction. Explain the results of the analysis of the contract for sale or why the analysis was not performed.
5			\$ Date of Contract
RA	Contract Pri	ice \$	\$ Date of Contract   Is the property seller the owner of public record?   Yes No Data Source(s)
INC	s there any	fina	ancial assistance (loan charges, sale concessions, gift or downpayment assistance, etc.) to be paid by any party on behalf of the borrower?
8	f Yes, repo	rt th	ne total dollar amount and describe the items to be paid.
	Note: Race	and	d the racial composition of the neighborhood are not appraisal factors.

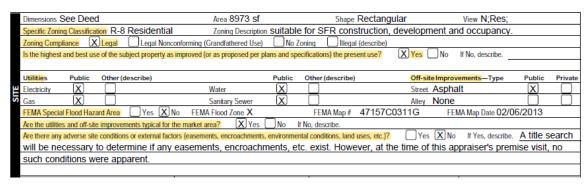

# Reviewing the Neighborhood Section of the Appraisal

- Review the Neighborhood Characteristics of the report
- 1. The location should be either Urban or Suburban. Acra Lending does not lend on rural properties.
- 2. Built up ideally should be between 25%-75% because these figures show a steady growth pattern. Anything outside this parameter requires a comment from the appraiser.
- 3. Growth rate should ideally be stable. If not stable, Appraiser should comment.
- 4. Property values ideally should be stable or increasing. If not, Appraiser should comment.
- 5. Demand and Supply should ideally be in balance or shortage. If not, Appraiser should comment.
- 6. Marketing time should be ideally under 3 months but not more than 6 months. If not, Appraiser should comment.
- 7. Appraiser to comment on neighborhood boundaries, neighborhood description, and market conditions.

	Note: Race and the racial composition of the neighborhood are not appraisal factors.												
		Neighborho	od Characteris	tics		One-Unit Hous	sing Trends	One-Unit Hou	using	Present Land I	Jse%

### Reviewing the Site Section of the Appraisal

- Verify Zoning classification. Ideally, the property should be zoned residential. For example, an R1.
- Zoning compliance should be legal. If checked Illegal, Underwriting may decline the loan. If property is legal Non-Conforming, we may need a rebuild letter from the city
- Check to see if the property is the highest and best use as improved. If the box is checked 'No', This will require further review and Sr. Mgmt approval.
- Verify that the boxes are checked for utilities and off-site improvements. If a street is marked private, the Underwriter may want a road maintenance agreement
- Verify if property is in a Flood Zone
- Appraiser to comment if there is any adverse conditions or external factors if box is checked 'Yes'.

## Reviewing the Comps Section of the Appraisal

- Areas of the appraisal to review: Location, Leasehold/Fee Simple, Quality of Construction, Condition, and Gross Living Area
  to name a few.
- The comps should be similar to our subject property.
- Quality of Construction must be between Q1-Q4.
- Be sure to read all the comments made by the Appraiser.
- The appraisal should have ideally 6 comps. Appraiser to comment if less than that amount.

# Reviewing the Reconciliation Section of the Appraisal

- The Appraisal should state As-Is value. Must include ARV if loan is a rehab
- Check for the appraised value and the effective date of the appraisal
- As-Is value returned for 20% higher or lower than expected would be an issue and could slow down the file

Indicated Value by: Sales Comparison Approach \$140,000 Cost Approach (if developed) \$ 140,900 Income Approach (if developed) \$
The sales comparison analysis best reflects the actions of buyers and sellers in the marketplace. It is supported by the cost approach.
The income approach is applicable. However, due to the scope of work as requested by the client and the fact that homes such as
subject are typically purchased for use and not income the income approach is not necessary.
This appraisal is made as is," subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed,
🗶 subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or
inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair:  This appraisal is made contingent upon the
repairs being made as described in the attached repair addendum.
Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting
conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ 140,000
as of 02/10/2021 , which is the date of inspection and the effective date of this appraisal.

# Reviewing the Reconciliation Section of the Appraisal

- Be sure to read any comments stated in the additional comments section
- Review Cost Approach to Value
- Review Income Approach to Value if applicable
- Review Project Information for PUDs if applicable

## Reviewing the Appraiser's Certification Section of the Appraisal

- Verify that the appraiser signed the appraisal in all areas of the report
- Review the name of the appraiser, company name, effective date of the appraisal, state certification number, subject property address, appraised value, and confirm that Citadel Servicing Corporation is the lender/client.

### Subject Property and Comparable Photos

- Carefully review each photo
- Be sure your appraisal comes with an address verification photo
- Review if there is evidence of occupancy if the Occupant box is checked vacant
- Review the location map on the appraisal. The Comparables should be located in close proximity to the subject property. (Ideally within 3 miles) If not, Appraiser to comment on why. For example, appraiser to explain why a comp is 5 miles away.
- The photos of the subject property and comparables must be actual photos. Photos from other sources is not permitted.
- Photos must be legible and clear.
- Carbon monoxide and fire alarm photos are required
- Address verification photo of the subject property is required.

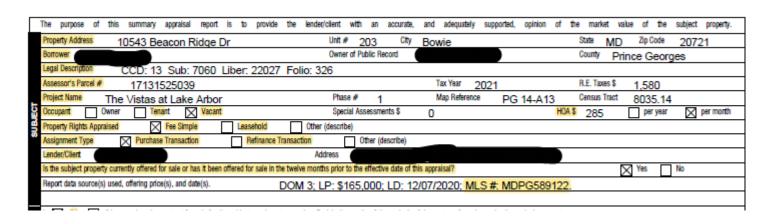

### Part Two

Review of Form 1073 for condo properties

# Reviewing the Subject Section of the Appraisal

#### Review the following areas;

- Property address
- 2. Borrower
- 3. Legal description
- 4. APN
- Project name
- 6. Occupant
- 7. HOA payment
- Property rights appraised
- Assignment type
- 10. Lender/Client
- 11. Check to see if property has been offered for sale within the last 12 months
- 12. If MLS was used, the appraisal should include the MLS number that is associated with the property

## Reviewing the Contract Section of the Appraisal

#### Review the following areas;

- 1. The appraiser should state that the purchase contract was reviewed
- 2. If the transaction is arms-length or non-arms length
- 3. Contract price
- 4. Is the seller the owner on public record
- 5. If there is financial assistance provided

	I ⊠ did	did not analyze	the contract for sale for the s	subject purchase transac	tion. Explain the results of the analysis of the contract for sale or	why the analysis v	was not					
	performed. Arms length sale; The purchase contract contains 7 pages. It was analyzed and fully executed on 12/09/2020. The contract was provided by

	Note: Race an	d the racial composi	tion of the neighborhood a	re not appraisal factors	i.							
									- 1. 1			

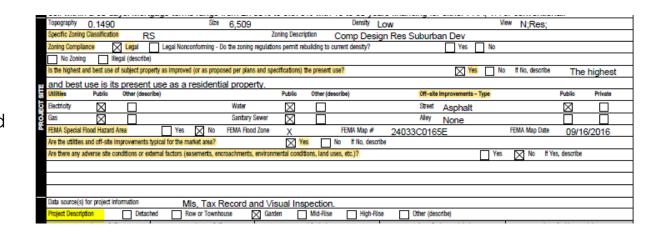

# Reviewing the Neighborhood Section of the Appraisal

- Review the following areas;
- 1. Neighborhood characteristics
- 2. Condominium Unit Housing Trends
- Review appraiser's comments on the Neighborhood Boundaries, Neighborhood Description, and Market Conditions

	Neighborhood Characteristics							Condominium Unit Housing Trends								ousing	Present Land Use %	
Location		Urban	$\times$	Suburban		Rural	Property Values		Increasing	X	Stable		Declining	PRICE		AGE	One-Unit	85 %
Built-Up	$\times$	Over 75%		25-75%		Under 25%	Demand/Supply		Shortage	$\times$	In Balance		Over Supply	\$ (000)		(yrs)	2-4 Unit	9

Market Con	ditions	(including sup	port f	or the above cond	lusi	ons)	The	mar	ket condition	s a	ppear to be	e s	table. There	e still ap	pears	to be a	balance bet	ween
supply	supply and demand in the neighborhood. Considering the LP is consistent with the market value; homes within the subject market, on average,																	
sell with	sell within a 90 days. Mortgage terms range from 2.750% to 3.375% with 15 to 30 years financing for either FHA, VA or conventional.																	
Y	-					No.				D.	alk				16			

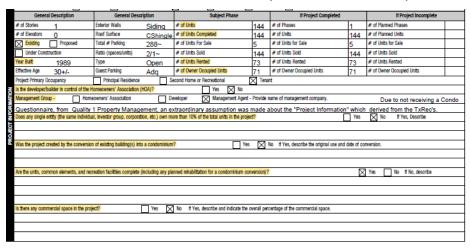

# Reviewing the Project Site Section of the Appraisal

- Review the following areas;
- 1. Specific Zoning Classification
- 2. Zoning Compliance
- Highest and Best Use of subject property as improved
- 4. Utilities
- 5. Off-Site improvements
- Flood Zone
- 7. Utilities and Off-Site improvements typical for the market area
- Adverse conditions
- Project description

# Reviewing the Project Information Section of the Appraisal

- Review the General Description. Subject property should be marked as existing. Also, review the year built
- Review the Subject Phase. A red flag would be 60% of the Condo association is not owner occupied. To determine this figure, divide number of owner occupied units into the total number of units.
- Review if the developer/builder is in control of the HOA
- Review to determine if project was created by the conversion of existing units. Appraiser to comment if the box is checked 'Yes'.
- Review whether the units, common elements, and recreation facilities are complete. If not, appraiser to comment.
- Review whether there are any commercial space in the project. This may indicate a mixed-use property and may kill the loan

## Reviewing the Project Information Section of the Appraisal Continued

- Review the appraiser's description of the condition of the project and quality of construction
- Review to determine if there are any common elements leased to or by the HOA. Appraiser to comment if the box is checked 'Yes'.
- Review to determine if the parking facilities is adequate for the project size and type. Appraiser
  to comment if the box is checked 'Yes'.

_	
Describe the condition of the project and quality of construction.	The condition of the project and the quality of construction appears to be adequate.
Describe the common elements and recreational facilities.	The commons elements are adequate. The recreational facilities consist of Common Grounds,
Tot Lot/Playground, Tennis Court and Football Fi	eld.
Are any common elements leased to or by the Homeowners' Association?	Yes No if Yes, describe the rental terms and options.
is the project subject to a ground rent? Yes 🔀 !	No If Yes, \$ per year (describe terms and conditions)
Are the parking facilities adequate for the project size and type?	Yes No If No, describe and comment on the effect on value and marketability.

# Reviewing the Project Analysis Section of the Appraisal

- Compared to other competitive projects of similar quality and design, the subject unit charge appears: Appraiser needs to check one of the boxes. If low, this is a red flag.
- Appraiser to check the box on whether there is any special or unusual characteristics. Appraiser to comment if yes.

	I did did not analyze the condominium project budget for the current year. Explain the results of the analysis of the budget (adequacy of fees, reserves, etc.), or why
	the analysis was not performed. The budget was not provided by the client and/ or at the time of the inspection.
SIS	Are there any other fees (other than regular HOA charges) for the use of the project facilities?  Yes No If Yes, report the charges and describe.
₹	
¥	
띮	Compared to other competitive projects of similar quality and design, the subject unit charge appears High Average Low If High or Low, describe
8	Are there any other fees (other than regular HOA charges) for the use of the project facilities?  Yes No If Yes, report the charges and describe.  Compared to other competitive projects of similar quality and design, the subject unit charge appears  I high Average Low If High or Low, describe  Are there any special or unusual characteristics of the project (based on the condominium documents, HOA meetings or other information) known to the appraiser?
	Are there any special or unusual characteristics of the project (based on the condominium documents, HOA meetings, or other information) known to the appraiser?
	Yes No If Yes, describe and explain the effect on value and marketability.

# Reviewing the Unit Description Section of the Appraisal

- Appraiser to comment on the utilities included in the monthly assessment
- Are the heating and cooling for the individual units separately metered Appraiser to check the box and comment if the box is checked 'No'.
- Appraiser to comment on the condition of the property. Acra Lending does not lend on C5 and C6 properties
- Appraiser to comment on any physical deficiencies or adverse conditions. There should not be any physical deficiencies or adverse conditions as it would affect the marketability of the property.

Appraiser to comment if the property generally conforms to the neighborhood. Nonconformity to a neighborhood is a major

red flag.

within the last year. The c							
comparables are similar in utility, they are within close proximity to subject and reflective of current market values. Comparable(s) # 1, #2 and #3							
where given some consideration, provided support and given equal weight in determining the indicated value by the SCA.							
indicated Value by Sales Comparison App		65.000					

# Reviewing the Income Section of the Appraisal

- This applies if there is intention to rent the property as opposed to selling it.
- This section provides details on the market rent for that property

,-							
INCOME APPROACH TO VALUE (not required by Fannie Mae)							
Estimated Monthly Market Rent \$	X Gross Rent Multiplier	= \$	Indicated Value by Income Approach				
Summary of Income Approach (including support for market rent and GRM)	N/A						

# Reviewing the Reconciliation Section of the Appraisal

- The appraisal should be marked As-Is.
- The value of the property is stated in this section
- Check the date of the appraisal

Indicated Value by: Sales Comparison Approach \$	165,000	Income Approach (if developed) \$	
The SCA to value was developed.	The income approach was no	ot developed due to subject property lending itself to owner occupancy.	
This annovisal is mada			
This appraisal is made as is",	subject to completion per plans an	nd specifications on the basis of a hypothetical condition that the improvements hav	ve been
completed, subject to the following	repairs or alterations on the basis	of a hypothetical condition that the repairs or alterations have been completed, or	subject to the
following required inspection based on the	extraordinary assumption that the c	condition or deficiency does not require alteration or repair:	_
Based on a complete visual inspection conditions, and appraiser's certification, r	of the interior and exterior ar my (our) opinion of the market	areas of the subject property, defined scope of work, statement of assumption value, as defined, of the real property that is the subject of this report	
\$ 165,000 , as of 01/	/02/2021 , which is the	e date of inspection and the effective date of this appraisal.	

### Final checks of the appraisal

- Check for the following:
- 1. That the appraiser signed and dated all areas of the report.
- 2. Has the correct property address
- 3. Has the correct Lender/Client
